Singapore Mark Ravinder Frost, Yu-Mei Balasingamchow, 2013-02-19 Brimming with verve and dramatic incident, *Singapore: A Biography* offers fresh insights into the life story of this island city-state through the personal experiences of the workers, adventurers, rulers and revolutionaries who have shaped its history over the last seven centuries. The authors, drawing on research undertaken in collaboration with the National Museum of Singapore, have woven together ancient chronicles, eyewitness accounts, oral histories and even modern radio and television broadcasts to create a vivid and compelling narrative that brings the past back to life. Grounded in scholarship yet fired by the imagination, this book reveals the Singapore story to have been as rich, diverse and multilayered as the city-state is prosperous, ordered and successful today.

Dictionary of World Biography: The 20th century, O-Z Frank Northern Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Chagall Jackie Wullschlager, 2008-10-21 "When Matisse dies," Pablo Picasso remarked in the 1950s, "Chagall will be the only painter left who understands what color really is." As a pioneer of modernism and one of the greatest figurative artists of the twentieth century, Marc Chagall achieved fame and fortune, and over the course of a long career created some of the best-known and most-loved paintings of our time. Yet behind this triumph lay struggle, heartbreak, bitterness, frustration, lost love, exile—and above all the miracle of survival. Born into near poverty in Russia in 1887, the son of a Jewish herring

merchant, Chagall fled the repressive “potato-colored” tsarist empire in 1911 for Paris. There he worked alongside Modigliani and Léger in the tumbledown tenement called La Ruche, where “one either died or came out famous.” But turmoil lay ahead—war and revolution; a period as an improbable artistic commissar in the young Soviet Union; a difficult existence in Weimar Germany, occupied France, and eventually the United States. Throughout, as Jackie Wullschlager makes plain in this groundbreaking biography, he never ceased giving form on canvas to his dreams, longings, and memories. His subject, more often than not, was the shtetl life of his childhood, the wooden huts and synagogues, the goatherds, rabbis, and violinists—the whole lost world of Eastern European Jewry. Wullschlager brilliantly describes this world and evokes the characters who peopled it: Chagall’s passionate, energetic mother, Feiga-Ita; his eccentric fellow painter and teacher Bakst; his clever, intense first wife, Bella; their glamorous daughter, Ida; his tough-minded final companion and wife, Vava; and the colorful, tragic array of artist, actor, and writer friends who perished under the Stalinist regime. Wullschlager explores in detail Chagall’s complex relationship with Russia and makes clear the Russian dimension he brought to Western modernism. She shows how, as André Breton put it, “under his sole impulse, metaphor made its triumphal entry into modern painting,” and helped shape the new surrealist movement. As art critic of the Financial Times, she provides a breadth of knowledge on Chagall’s work, and at the same time as an experienced biographer she brings Chagall the man fully to life—ambitious, charming, suspicious, funny, contradictory, dependent, but above all obsessively determined to produce art of singular beauty and emotional depth. Drawing upon hitherto unseen archival material, including numerous letters from the family collection in Paris, and illustrated with nearly two hundred paintings, drawings, and photographs, Chagall is a landmark biography to rank with Hilary Spurling’s Matisse and John Richardson’s Picasso.

Biography: Freedom and Destiny Rudolf Steiner, 2013-04-03 The path of an individual human life - our biography - is something of a mystery. Despite the abundance of published biographies and autobiographies of celebrities and historical figures, the scientific study of human biography remains in its infancy, with little understanding of the inherent laws in the path of an individual's life. Yet as Rudolf Steiner shows here, every biography, regardless of the individual's fame, perceived importance or outer success, is ruled by archetypal influences, patterns and laws. This broad-ranging anthology addresses some critical and as yet unanswered questions: What effects do education - and in particular contrasting education methods - have on later life? How do the various periods of life relate to each other? Do the effects of events on the individual become evident immediately, or is their true impact delayed - perhaps by decades? To what extent can an individual shape the stages of his or her biography? How much freedom of choice do we have, and how much of life is predetermined? Out of the higher knowledge Rudolf Steiner acquired from his spiritual research, he described the human individuality as a being with a continuing existence - before birth and beyond death. This eternal being experiences many varied conditions and situations, the effects of which are observable in our biography. This book addresses these and other issues such as freedom and

destiny, the effects of heredity, illness, and the impact of education, offering answers based on a profound knowledge of the human being.

Ida Lupino William Donati, 2023-01-31 British-born actress, singer, director, and producer Ida Lupino (1918-1995) cut one of the most alluring profiles of any Hollywood persona during the forties and fifties. The star of classic films such as *They Drive by Night* (1940), *High Sierra* (1941), and *Road House* (1948), she was a stalwart of the screen throughout her early

career and frequently received top billing ahead of stars such as Humphrey Bogart. While her talent was undeniable, her insistence on taking only roles she felt would challenge her professionally often put her at odds with the demands of studio executives. It was in those periods of frustration and suspension as an actor that Lupino fostered a talent for the filmmaking process. In a bold decision for a woman of the era, she founded her own independent production company where she became widely regarded as one of the most prolific filmmakers working at the height of the Hollywood studio system. She has been described by fellow directors such as Martin Scorsese as resilient, with a remarkable empathy for the fragile and heartbroken. William Donati's *Ida Lupino: A Biography* chronicles the dramatic life of one of Hollywood's most substantive and innovative artists who lived her life unapologetically both behind and in front of the camera. Now considered a classic biography of an amazing talent, *Vanity Fair* praised the book as masterful. Celebrating 27 years in print, this edition has a new cover, all new photographs, and a poignant preface by the author.

Picturing Frederick Douglass: An Illustrated Biography of the Nineteenth Century's Most Photographed American John Stauffer, Zoe Trodd, Celeste-Marie Bernier, 2015-11-02 A landmark and collectible volume—beautifully produced in duotone—that canonizes Frederick Douglass through historic photography. Commemorating the bicentennial of Frederick Douglass's birthday and featuring images discovered since its original publication in 2015, this “tour de force” (*Library Journal*, starred review) reintroduced Frederick Douglass to a twenty-first-century audience. From these pages—which include over 160 photographs of Douglass, as well as his previously unpublished writings and speeches on visual aesthetics—we learn that neither Custer nor Twain, nor even Abraham Lincoln, was the most photographed American of the nineteenth century. Indeed, it was Frederick Douglass, the ex-slave-turned-abolitionist, eloquent orator, and seminal writer, who is canonized here as a leading pioneer in photography and a prescient theorist who believed in the explosive social power of what was then just an emerging art form. Featuring: Contributions from Henry Louis Gates, Jr., and Kenneth B. Morris, Jr. (a direct Douglass descendent) 160 separate photographs of Douglass—many of which have never been publicly seen and were long lost to history A collection of contemporaneous artwork that shows how powerful Douglass's photographic legacy remains today, over a century after his death All Douglass's previously unpublished writings and speeches on visual aesthetics
