*Christian Apologetics in a World Community* William Dyrness, 2002-05-20 Christians have always felt a duty to explain and defend their faith, but in today's global village that duty can easily become a burden. What can Christians say to Hindus? to third-world Communists? to agnostic social or natural sciences? No creed or catechism can adequately deal with all the challenges to Christianity. What we need is a comprehensive model of the Christian faith, one that can meet widely varied challenges without compromising the gospel. After describing how Christians have done apologetics in the past, William Dyrness sketches a model for effective apologetics in the twenty-first century. He shows how his model relates to various non-Christian philosophies as well as how it speaks to many Christian concerns, including the problem of suffering.

*The History of Apologetics* Zondervan, 2020-06-16 ECPA Christian Book Award 2021 Finalist: Biography & Memoir Explore Apologetics through the Lives of History's Great Apologists The History of Apologetics follows the great apologists in the history of the church to understand how they approached the task of apologetics in their own cultural and theological context. Each chapter looks at the life of a well-known apologist from history, unpacks their methodology, and details how they approached the task of defending the faith. By better understanding how apologetics has been done, readers will be better able to grasp the contextualized nature of apologetics and apply those insights to today's context. The History of Apologetics covers forty-four apologists including: Part One: Patristic Apologists Part Two: Medieval Apologists Part Three: Early Modern Apologists Part Four: 19th C. Apologists Part Five: 20th C. American Apologists Part Six: 20th C. European Apologists Part Seven: Contemporary Apologists

**Thinking About Christian Apologetics** James K. Beilby, 2011-09-13 Most introductions to apologetics begin with the how to of defending the faith, diving right into the major apologetic arguments and the body of evidence. For those who want a more foundational look at this contested theological discipline, this book examines Christian apologetics in its nature, history, approaches, objections and practice. What is apologetics? How has apologetics developed? What are the basic apologetic approaches? Why should we practice apologetics? Countless Christians today are seeking a responsible way to defend and commend their faith. If you are one them, Thinking About Christian Apologetics is the place to start.

**Humble Apologetics** John Gordon Stackhouse, 2006 Publisher description: Is it still possible, in an age of religious and cultural pluralism, to engage in Christian apologetics? How can one urge one's faith on others when such a gesture is

typically regarded with suspicion, if not outright resentment? In *Humble Apologetics* John G. Stackhouse brings his wide experience as a historian, philosopher, journalist, and theologian to these important questions and offers surprising--and reassuring--answers. Stackhouse begins by acknowledging the real impediments to Christian testimony in North America today and to other faiths in modern societies around the world. He shows how pluralism, postmodernism, skepticism about our ability to know the truth, and a host of other factors create a cultural milieu resistant to the Christian message. And he shows how the arrogance or dogmatism of apologists themselves can alienate rather than attract potential converts. Indeed, Stackhouse argues that the crucial experience of conversion cannot be compelled; all the apologist can do is lead another to the point where an actual encounter with Jesus can take place. Our objective, Stackhouse writes, is to offer whatever assistance we can to our neighbors toward their full maturity: toward full health in themselves and in their relationships, and especially toward God. In the last part of the book, he shows how an attitude of humility, instead of merely trying to win religious arguments, will help believers offer their neighbors the gift of Christ's love. Drawing on the author's personal experience and written with an engaging directness and humility, *Humble Apologetics* provides sound guidance on how to share Christian faith in a postmodern world.

**Mere Apologetics** Alister E. McGrath, 2012-01-01 Throughout history there have been great and articulate defenders of the faith, from Augustine and Aquinas to Jonathan Edwards, G. K. Chesterton, Francis Schaeffer, and C. S. Lewis. But with new challenges comes the need for a fresh apologetic that specifically addresses the arguments levied against faith in our time of scientific atheism and skepticism. In the spirit of C. S. Lewis's *Mere Christianity*, Alister McGrath's *Mere Apologetics* seeks to equip readers to engage gracefully and intelligently with the challenges facing the faith today while drawing appropriately on the wisdom of the past. Rather than supplying the fine detail of every apologetic issue in order to win arguments, *Mere Apologetics* teaches a method that appeals not only to the mind but also to the heart and the imagination. This highly accessible, easy-to-read book is perfect for pastors, teachers, students, and lay people who want to speak clearly and lovingly to the issues that confront people of faith today.

*Classical Readings in Christian Apologetics, A.D. 100-1800* L. Russ Bush, 1983 This volume is a collection of selected readings that are of continuing significance for Christian apologetics. Dr. Bush has written a general introduction to the field of apologetics and an introduction to each apologist cited and the work or works from which selections have been drawn. A brief bibliography is also given for each writer. Christians have always been called on to defend their beliefs- certainly no less today than at any other time in history. In this book the outstanding apologists of previous centuries become models, both in the content of their writing and in their methodology, for Christians today. All those who love the Lord and His church and are concerned that many be made aware of the reasonableness of the Christian faith will find this book enlightening and exciting.

**Apologetics for a New Generation** Sean McDowell, 2009-03-01 Many teenagers leave home for college but don't take their faith with them. Popular writer and speaker Sean McDowell offers a solution for this problem: a new way of approaching faith that addresses the questions the emerging generation is asking and that incorporates a radically humble and relational approach. An impressive list of contributors including Dan Kimball (They Like Jesus but Not the Church), Brian Godawa (Hollywood Worldviews), and Josh McDowell show that today's apologetics must employ... a clear connection with everyday life an invitation for people to express their doubts and wrestle with tough questions a culturally savvy understanding of the way secular people view Christians an engaging methodology that captures the imagination before engaging the mind a strong emphasis on the resurrection and how it changes everything This resource is imperative for leaders who are ready to engage a new generation with the claims of Christ.

**Classical Apologetics** Robert Charles Sproul, John Henry Gerstner, Arthur Lindsley, 1984 This work on apologetics examines the classical arguments for the existence of God (ontological and Thomistic arguments), discusses the philosophical issues that confront contemporary apologetics, and provides an incisive critique of presuppositional apologetics.

**Relational Apologetics** Michael C. Sherrard, 2012-09 How do you know that there is a God? How do you answer someone who says that truth doesn't exist? What do you do when someone asks you how you know that Christianity is the right religion? If you are like many people, the only answer you can offer is, "Well... I just have faith." But to a world that wants to know if God is real, this is not a good enough answer. Christians must be ready to give a reason, a good reason, for their hope in Jesus, and their lives must be a holy reflection of their message. In Relational Apologetics, Michael C. Sherrard seeks to help Christians do just that: become holy people that defend Christianity both in word and deed. Using stories and drawing upon personal experiences, Sherrard teaches the importance of personal holiness, treating skeptics with respect, engaging in authentic conversations instead of shouting matches, and having well thought out answers to the skeptic's questions. In the process, you'll learn that defending Christianity is as much about who you are and what you do as it is what you say. And you will find that your life is intended to be an apologetic for God and a light for men to find Him.

**A History of Apologetics** Avery Dulles, 2018-08-22 Making the case for the Christian faith—apologetics—has always been part of the Church's mission. Yet Christians sometimes have had different approaches to defending the faith, responding to the needs of their respective times and framing their arguments to address the particular issues of their day. Cardinal Avery Dulles's A History of Apologetics provides a masterful overview of Christian apologetics, from its beginning in the New Testament through the Middle Ages and on to the present resurgence of apologetics among Catholics and Protestants. Dulles shows how Christian apologists have at times both criticized and drawn from their intellectual surroundings to present the reasonableness of Christian belief. Written by one of Catholicism's leading American theologians, A History of Apologetics also examines apologetics in the 20th and early 21st centuries including its decline among Catholics

following Vatican II and its recent revival, as well as the contributions of contemporary Evangelical Protestant apologists. Dulles also considers the growing Catholic-Protestant convergence in apologetics. No student of apologetics and contemporary theology should be without this superb and masterful work.

**Imaginative Apologetics** Andrew Davison, 2014-07-28 A dynamic and constructive contribution to the discussion about faith and the new atheism. Apologetics is a key area of Christian theology, especially in an increasingly secular society. The authors explore what it means to do apologetics in an Anglican context.

**Apologetics** Alexander Balmain Bruce, 1892

**Narrative Apologetics** Alister E. McGrath, 2019-10-15 The Bible is a narrative--the story of God's creation, humankind's fall, and God's plan of redemption. And it is filled with countless smaller stories that teach us about people, history, and the nature of God. It's no surprise that God would choose to reveal himself to us in story--after all, he hardwired us for story. Despite this, we so often attempt to share our faith with others not through story but through systems, arguments, and talking points--methods that appeal only to our mind and neglect our imagination and our emotions. In this groundbreaking book, scholar and author Alister McGrath lays a foundation for narrative apologetics. Exploring four major biblical narratives, enduring stories from our culture such as Tolkien's *The Lord of the Rings* and Lewis's *The Chronicles of Narnia*, and personal narratives from people such as Augustine of Hippo and Chuck Colson, McGrath shows how we can both understand and share our faith in terms of story.

**The Faithful Apologist** K. Scott Oliphint, 2022-02-22 Rediscover the art of Christian persuasion in an age of increasing unreason. For many Christians who've tried their hands at evangelism or have had to defend their faith, it can feel like doing PR work for God—limiting ourselves to a series of strategies and tactics. In *The Faithful Apologist*, Scott Oliphint provides a cross-centered foundation for Christians to explain their faith in a welcoming and persuasive manner that avoids any burden to sell Christianity to non-Christians. Drawing as much from the rich tradition of Western apologetics as from the wisdom of effective communication, this book bridges the gap between sharing the truth of our faith and the art of persuasion by: Laying out the biblical and theological foundations of apologetics. Studying the art of persuasion as it's demonstrated in Scripture. Linking the discipline of apologetics to the classical art of persuasion. As devoted to people as he is to the intellect, Reformed theologian Dr. Scott Oliphint has written this faithful book to explain the importance of both devotions in apologetics and in Christian correspondence with the world. He shows that, when our faith is grounded in the Triune God and his sovereignty, our attempts to defend it will grow more confident and convincing. Accessible and thoroughly rooted in Scripture, *The Faithful Apologist* takes the anxiety out of apologetics by revealing that success is not measured in the number of minds we change, but in our faithfulness to God, the Divine Persuader.

*Renewal Apologetics* Christopher J. Wilson, 2019-12-09 Why do you believe in God? Why do you believe in the Bible? Why

do you believe in miracles? These are questions that Christians are often asked by sceptics. The field of apologetics attempts to provide rational answers to these and other questions. Unfortunately, apologetical answers to these questions are often abstract and philosophical. However, the Christian apologist/evangelist has a much more powerful argument in their arsenal: the argument from miracles. Miracles are the original Christian apologetic. It was through the witnessing of miracles that Christianity was originally spread. By applying modern tools of philosophical inquiry and scientific methodology, Wilson is able to establish a core set of miracles which defy naturalistic explanations and strongly point toward occurrences of Special Divine Action (SDA). However, once these occurrences are proven to be genuine miracles, several questions remain. Why does God sometimes perform miracles? Why does he often answer no? How do these random acts fit into his overall plans of redemption? By answering these and other questions, Wilson develops a comprehensive apologetic for both Christianity in general and the Renewal Movement in particular.

The Beauty of the Faith Joseph D. Wooddell, 2010-09-23 Nearly everyone finds beauty compelling, so Christian apologists should devise ways to present an aesthetic Christian apologetic. Nearly all apologists admit that the beauty of a life well lived and the beauty of the Christian community (along with the use of media and the arts) are not only helpful for apologetics but essential in a postmodern culture. In fact, it is frustrating to see how many apologists mention the need for such an approach but go on devoting most of their energies to traditional approaches. This book is different. It clearly shows the pros and cons of traditional approaches and offers a fresh perspective as well, arguing that beauty is the most compelling apologetic, and suggesting ways to implement such an approach. It demonstrates how Western culture arrived in its current unfortunate situation and uses both Scripture and figures like Athenagoras and Jonathan Edwards to challenge current views on apologetics.

Christian Apologetics as Cross-Cultural Dialogue Benno van den Toren, 2011-10-27 A call for a new understanding of apologetics, moving away from appeals to tran-cultural rationality, arguing for a new form of cross-cultural dialogue

**The Big Book of Christian Apologetics** Norman L. Geisler, 2012-11-01 The Big Book of Christian Apologetics is a comprehensive resource designed to equip motivated believers with information to help defend and explain their faith. Examining nearly every key issue, person, and concept related to Christian apologetics, this book clarifies difficult biblical passages, clearly explains various philosophical systems and concepts, examines contemporary issues and challenges, and offers classic apologetic arguments, all with the aim of giving readers the background to intelligently and persuasively talk about their Christian faith with skeptics. An expertly abridged version of the Baker Encyclopedia on Christian Apologetics, this resource brings leading apologist Norman L. Geisler's seminal work to the masses.

**The Prophetic Apologetic** Jonathan Ammon, 2022-04-10 In a world of growing skepticism, Charismatic Christianity offers a bold approach to defending the faith. In THE PROPHETIC APOLOGETIC, Jonathan Ammon demonstrates how

supernatural encounters with Jesus are central to our relationship with God and the defense of the Christian faith. This concise guide introduces an extraordinary approach to apologetics. You will learn how a charismatic worldview can help you reason with skeptics. You will learn how charismatic theology offers unique answers to skepticism's biggest arguments, and how a charismatic lifestyle better enables you to share your faith. More than a one-stop manual for defending the faith, this book re-centers Christian philosophy and apologetics on the supernatural. Discover what the Bible has to say about God's ongoing revelation of Himself through Jesus and the miraculous power of God.

This appears at the end of these books. From 'Christian Commitment' Introducing the Edward Carnell Library (Nine Titles Listed Inside) Rather than mounting a rational proof for God's existence, the author advocates here a spiritual approach to God. This calls for an exercise not only of one's rational faculties, but also of the spiritual. The four parts of this book, originally published in 1957, treat the development and application of knowledge by moral acceptance, the process of becoming acquainted with the person of God, and concluding inferences and problems. Edward John Carnell was--in my estimation--the brightest and the best of the neo-evangelical leaders. He was a courageous thinker who was not afraid to think new thoughts in the service of biblical orthodoxy. The Carnell Library is a gift to today's evangelical movement. --Richard J. Mouw President, Fuller Seminary [Carnell's] fertile mind and ready pen blazed fresh theological trails as he sought to defend and proclaim the Christian faith as a world and life view. --David Allan Hubbard Former President of Fuller Theological Seminary In this welcome collection of Carnell books, we are offered an inside view of a radical shift in American religious thinking -- the emergence of twentieth-century evangelicalism out of Protestant fundamentalism. --Rudolph Nelson, author of The Making and Unmaking of an Evangelical Mind: The Case of Edward Carnell Edward John Carnell (1919-1967) was an ordained Baptist minister who served for three years as Associate Professor of Philosophy of Religion at Gordon Divinity School. He taught apologetics at Fuller Theological Seminary from 1948 to 1967 and served there as the second president from 1954 to 1959.
