Zero Footprint Simon Chase, 2016-02-10 Simon Chase's life is a maze of burner phones, encrypted emails, secret meetings, and weaponry - all devoted to executing missions too sensitive for government acknowledgement. Working for shadowy British and American organisations, Chase has been on the trail of Bin Laden in Afghanistan, protected allied generals in Iraq, and been part of an operation directly related to the attack in 2012 on the US consulate in Benghazi. *Zero Footprint* takes us to this dangerous and thrilling world, and tells the true story of a private military contractor whose work forms the foundation for western security abroad, especially when the UK and US military, intelligence agencies, and departments of state need something done that they can't - or won't - do themselves.

Created for More Jonathan Malm, 2014-08-15 Are you compartmentalizing God? If you ever feel like your times spent praying or trying to read the Bible are disconnected from the rest of your day, you need this book. Devotions aren't supposed to be isolated from your life; the God who created you also calls you to create—whether that is a business, a family, a book, a photograph, a website, a sermon, or a meal. *Created for More* ties together our drive to create and our desire for God. Spend 30 days learning to be more than you thought you could be. Be humble. Be intentional. Be limited. Be parallel. Be invested. Be brave. Be a creator as you draw near to the God who created you.

The Self-Help Compulsion Beth Blum, 2020-01-28 Samuel Beckett as a guru for business executives? James Joyce as a guide to living a good life? The notion of notoriously experimental authors sharing a shelf with self-help books might seem far-fetched, yet a hidden history of rivalry, influence, and imitation links these two worlds. In *The Self-Help Compulsion*, Beth Blum reveals the profound entanglement of modern literature and commercial advice from the late nineteenth century to the present day. Blum explores popular reading practices in which people turn to literature in search of practical advice alongside modern writers' rebukes of such instrumental purposes. As literary authors positioned themselves in opposition to people like Samuel Smiles and Dale Carnegie, readers turned to self-help for the promises of mobility, agency, and practical use that serious literature was reluctant to supply. Blum unearths a series of unlikely cases of the love-hate relationship between serious fiction and commercial advice, from Gustave Flaubert's mockery of early DIY culture to Dear Abby's cutting diagnoses of Nathanael West and from Virginia Woolf's ambivalent polemics against self-improvement to the ways that contemporary global authors such as Mohsin Hamid and Tash Aw explicitly draw on the self-help genre. She also traces the self-help industry's tendency to popularize, quote, and adapt literary wisdom and considers what it might have to teach

today's university. Offering a new history of self-help's origins, appeal, and cultural and literary import around the world, this book reveals that self-help's most valuable secrets are not about getting rich or winning friends but about how and why people read.

No More Bananas Jeroen Kraaijenbrink, 2019-06-21 "Feel better, get done more and become a nicer person" In this age of social media, fake news, individualism and information overload, the certainties we relied on in the past are gone. In our quest for assurance and support, the only seemingly dependable pillar left is other people. So we look to them. But they are unsettled too. And by looking to them, we create and perpetuate our own vicious stress-cycle. As a result, we lose our sensible selves. And we go bananas. But there is good news. If we look around us, there are people who withstand the collective lunacy and stay grounded. They do something that most of us have a hard time doing: they stay themselves. And the best news is that what they can do, you can do too. It doesn't require any special talents or supernatural powers. It only requires doing. In this amiable, open and accessible book, Jeroen Kraaijenbrink takes you on his personal journey out of Bananaland. Drawing from cognitive psychology, martial arts, Saint Benedict, personal experience, and a wide range of other sources, the book offers a nine-step approach with some remarkably practical advice for keeping a cool head in the collective lunacy. "Free yourself from the collective lunacy and reclaim your calm and sensible self"

Without Their Permission Alexis Ohanian, 2013-10-01 A WALL STREET JOURNAL BESTSELLER As Alexis Ohanian learned when he helped to co-found the immensely popular reddit.com, the internet is the most powerful and democratic tool for disseminating information in human history. And when that power is harnessed to create new communities, technologies, businesses or charities, the results can be absolutely stunning. In this book, Alexis will share his ideas, tips and even his own doodles about harnessing the power of the web for good, and along the way, he will share his philosophy with young entrepreneurs all over the globe. Within a couple of years of graduating from the University of Virginia, Ohanian did just that, selling reddit for millions of dollars. The No-Self Help Book Kate Gustin, 2018-12-01 It's time to get over your self! Written by a clinical psychologist and student of Eastern philosophy, this handy little guide offers a radical solution to anyone struggling with self-doubt, self-esteem, and self-defeating thoughts: "no-self help." By breaking free of your own self-limiting beliefs, you'll discover your infinite potential. There is an insidious, global identity theft occurring that has robbed people of their very recognition of their true selves. The culprit—indeed the mastermind of this crisis—has committed the inside job of creating and promoting the idea that we are all a separate self, which is the chief source of our daily distress and dissatisfaction. No more than a narrative of personhood pieced together from disparate neural activations, the self we believe ourselves to be in our own minds—although quite capable of being affirming, inspiring, and constructive—often spews forth a distressing flow of worry and second-guessing, blaming and shaming, regret and guilt. This book offers an antidote to this epidemic of stolen identity, isolation, and self-deprecation: no-self (a concept known in Buddhist philosophy as anatta or anatman). The No-Self Help Book turns the idea of self-improvement on its head, arguing that the key to well-being lies not in the relentless pursuit of bettering one's self but in the recognition of the self as a false identity born in the mind. Rather than identifying with a small, relative sense of self, this book encourages you to embrace a liberating alternative—an expansive awareness that is flexible and open to experiencing life as an ongoing and ever-changing process, without attachment to personal outcomes or storylines. To help you make this leap from self to no-self, the book provides forty bite-sized chapters full of clever and inspiring insights based in positive psychology and non-duality—a philosophy that asserts there is no real separation between

any of us. So, if you're tired of "self-help" and you're ready to explore who you are beyond the self, let The No-Self Help Book be your guide.

The 48 Laws of Power Robert Greene, 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

The End of Self-Help, 2015-04-16 The self-help genre is replete with books telling people how to be happier and more fulfilled. And books with a spiritual or mindfulness perspective suggest that being present is the solution. But no book provides the precise and constructive guidance needed to discover that happiness is truly possible in any moment. Until now. Using clear language and useful examples, *The End of Self-Help: Discovering Peace and Happiness Right at the Heart of Your Messy, Scary, Brilliant Life* describes how personal suffering is a case of mistaken identity. The book starts with common, entrenched psychological experiences such as unresolved problems from the past, worries about the future, feelings of inadequacy, compulsive behaviors, and confusing emotions. In skillful detail, it illuminates the shift of attention

required for true happiness. Explorations in each chapter bring the material alive in the reader's own experience, essential to challenge decades of conditioning. The book walks alongside readers as they become experts in how their thoughts and feelings bring about suffering and realize the simple fact of peaceful, aware presence that is always here and available. It describes that this infinite, spacious presence is the truth of who we are, that we're not limited to our thoughts and feelings. The book illustrates how to live this insight in the moments of everyday life.

Your Inner Will Piero Ferrucci, 2014-09-04 The bestselling psychotherapist and author of *The Power of Kindness* provides concrete, meaningful lessons in developing internal willpower during times of personal crisis. We all experience periods of gloom, fear, and uncertainty. But we each possess deep reserves of inner strength and wisdom for dealing with such setbacks. Indeed, it is the very arrival of darkened circumstances that can summon our untapped energies. In *Your Inner Will*, therapist and philosopher Piero Ferrucci explores how to play on the iron chords of our interior selves. In this stirring and deeply practical work, Ferrucci provides a full program for the cultivation of the will by employing insights from classical mythology and wisdom teachings, neuroscience research, case studies, and psychological exercises. Each chapter focuses on a specific aspect of will and is followed by exercises that guide the reader in its development. Chapters include: Mastery, Autonomy, Freedom, Courage, Integrity, and Resilience. Ferrucci describes the pitfalls we face when our inner strength is lacking, and shows us what we can expect when it is healthfully developed. An effective will can guide us in our search for inner freedom; it helps us to take risks and to renew ourselves; it makes us feel strong and confident. *Your Inner Will* is an immensely practical study that helps readers navigate crises and pursue more purposeful lives.

A Brief Guide to Self-Help Classics James M. Russell, 2019-01-17 From Dale Carnegie's *How to Win Friends and Influence People*, published in 1936, which has sold over 30 million copies to date, to the mind management programme of Professor Steve Peters' *The Chimp Paradox*, a concise and insightful guide to seventy of the most influential self-help books ever published. An entertaining, accessible companion, for readers of self-help books and sceptics alike. The titles include classics on achieving success, confidence and happiness, mindfulness, how to change your life, self-control, overcoming anxiety and self-esteem issues and stress relief. The chronological arrangement of the titles reveals the intriguing story of how early self-improvement titles were succeeded by increasingly personality-based, materialistic titles and shows how breakout classics often influenced other titles for decades to come. Each book is summarised to convey a brief idea of what it has to offer the interested reader, while a 'Speed Read' for each book delivers a quick sense of what each writer is like to read and a highly

compressed summary of the main points of the book in question. This is a work of reference to dip into, that acknowledges that some of the most powerful insights into ourselves can be found in texts that aren't perceived as being 'self-help' books, and that wisdom and consolation can be found in the strangest places.
