

19th Century

Christopher Prendergast

The 19th Century Robert Mackenzie, 1881

Nineteenth-Century Music Carl Dahlhaus, 1989 This magnificent survey of the most popular period in music history is an extended essay embracing music, aesthetics, social history, and politics, by one of the keenest minds writing on music in the world today. Dahlhaus organizes his book around watershed years--for example, 1830, the year of the July Revolution in France, and around which coalesce the demise of the age of art proclaimed by Heine, the musical consequences of the deaths of Beethoven and Schubert, the simultaneous and dramatic appearance of Chopin and Liszt, Berlioz and Meyerbeer, and Schumann and Mendelssohn. But he keeps us constantly on guard against generalization and cliché. Cherished concepts like Romanticism, tradition, nationalism vs. universality, the musical culture of the bourgeoisie, are put to pointed reevaluation. Always demonstrating the interest in socio-historical influences that is the hallmark of his work, Dahlhaus reminds us of the contradictions, interrelationships, psychological nuances, and riches of musical character and musical life. *Nineteenth-Century Music* contains 90 illustrations, the collected captions of which come close to providing a summary of the work and the author's methods. Technical language is kept to a minimum, but while remaining accessible, Dahlhaus challenges, braces, and excites. This is a landmark study that no one seriously interested in music and nineteenth-century European culture will be able to ignore.

The Transformation of the World Jürgen Osterhammel, 2014-04-13 A panoramic global history of the nineteenth century A monumental history of the nineteenth century, *The Transformation of the World* offers a panoramic and multifaceted portrait of a world in transition. Jürgen Osterhammel, an eminent scholar who has been called the Braudel of the nineteenth century, moves beyond conventional Eurocentric and chronological accounts of the era, presenting instead a truly global history of breathtaking scope and towering erudition. He examines the powerful and complex forces that drove global change during the long nineteenth century, taking readers from New York to New Delhi, from the Latin American revolutions to the Taiping Rebellion, from the perils and promise of Europe's transatlantic labor markets to the hardships endured by nomadic, tribal peoples across the planet. Osterhammel describes a world increasingly networked by the telegraph, the steamship, and the railways. He explores the changing relationship between human beings and nature, looks at the importance of cities, explains the role slavery and its abolition played in the emergence of new nations, challenges the widely held belief that the

nineteenth century witnessed the triumph of the nation-state, and much more. This is the highly anticipated English edition of the spectacularly successful and critically acclaimed German book, which is also being translated into Chinese, Polish, Russian, and French. Indispensable for any historian, *The Transformation of the World* sheds important new light on this momentous epoch, showing how the nineteenth century paved the way for the global catastrophes of the twentieth century, yet how it also gave rise to pacifism, liberalism, the trade union, and a host of other crucial developments.

Conrad in the Nineteenth Century Ian Watt, 1981-06-29 "Nothing short of a masterpiece. . . . One of the great critical works produced since the 1950s."—New York Times

19th Century Europe Hannu Salmi, 2008-10-20 '19th Century Europe' offers a concise and fresh look at European culture between the Great Revolution in France and the First World War.

Victorious Century David Cannadine, 2018-02-20 A sweeping history of nineteenth-century Britain by one of the world's most respected historians. An evocative account . . . [Cannadine] tells his own story persuasively and exceedingly well." —The Wall Street Journal To live in nineteenth-century Britain was to experience an astonishing and unprecedented series of changes. Cities grew vast; there were revolutions in transportation, communication, science, and work—all while a growing religious skepticism rendered the intellectual landscape increasingly unrecognizable. It was an exhilarating time, and as a result, most of the countries in the world that experienced these changes were racked by political and social unrest. Britain, however, maintained a stable polity at home, and as a result it quickly found itself in a position of global leadership. In this major new work, leading historian David Cannadine has created a bold, fascinating new interpretation of nineteenth-century Britain. Britain was a country that saw itself at the summit of the world and, by some measures, this was indeed true. It had become the largest empire in history: its political stability positioned it as the leader of the new global economy and allowed it to construct the largest navy ever built. And yet it was also a society permeated with doubt, fear, and introspection. Repeatedly, politicians and writers felt themselves to be staring into the abyss and what is seen as an era of irritating self-belief was in fact obsessed with its own fragility, whether as a great power or as a moral force. *Victorious Century* is a comprehensive and extraordinarily stimulating history—its author catches the relish, humor and staginess of the age, but also the dilemmas faced by Britain's citizens, ones we remain familiar with today.

Women and Achievement in Nineteenth-Century Europe Linda L. Clark, 2008-04-17 A history of European women's professional activities and organizational roles between 1789 and 1914.

Paris and the Nineteenth Century Christopher Prendergast, 1992

Book Traces Andrew M. Stauffer, 2021-02-05 In most college and university libraries, materials published before 1800 have been moved into special collections, while the post-1923 books remain in general circulation. But books published between these dates are vulnerable to deaccessioning, as libraries increasingly reconfigure access to public-domain texts via

digital repositories such as Google Books. Even libraries with strong commitments to their print collections are clearing out the duplicates, assuming that circulating copies of any given nineteenth-century edition are essentially identical to one another. When you look closely, however, you see that they are not. Many nineteenth-century books were donated by alumni or their families decades ago, and many of them bear traces left behind by the people who first owned and used them. In *Book Traces*, Andrew M. Stauffer adopts what he calls guided serendipity as a tactic in pursuit of two goals: first, to read nineteenth-century poetry through the clues and objects earlier readers left in their books and, second, to defend the value of keeping the physical volumes on the shelves. Finding in such books of poetry the inscriptions, annotations, and insertions made by their original owners, and using them as exemplary case studies, Stauffer shows how the physical, historical book enables a modern reader to encounter poetry through the eyes of someone for whom it was personal.

Encyclopedia of nineteenth-century photography John Hannavy, 2008 The first comprehensive encyclopedia of world photograph up to the beginning of the twentieth century. It sets out to be the standard, definitive reference work on the subject for years to come.

19th Century Art Robert Rosenblum, Horst Woldemar Janson, 1984 Published jointly by Prentice Hall and Harry N. Abrams, Inc., a comprehensive survey of all of Western painting and sculpture, 1776-1900.

Oriental Panorama Reinhold Schiffer, 1999

The Historical Novel in Nineteenth-Century Europe Brian Hamnett, 2011-11-24 Brian Hamnett examines key historical novels by Scott, Balzac, Manzoni, Dickens, Eliot, Flaubert, Fontane, Galdós, and Tolstoy, revealing the contradictions inherent in this form of fiction and exploring the challenges writers encountered in attempting to represent a reality that linked past and present.

Representing the Past in the Art of the Long Nineteenth Century Matthew C. Potter, 2021-09-30 This edited collection explores the intersection of historical studies and the artistic representation of the past in the long nineteenth century. The case studies provide not just an account of the pursuit of history in art within Western Europe but also examples from beyond that sphere. These cover canonical and conventional examples of history painting as well as more inclusive, 'popular' and vernacular visual cultural phenomena. General themes explored include the problematics internal to the theory and practice of academic history painting and historical genre painting, including compositional devices and the authenticity of artefacts depicted; relationships of power and purpose in historical art; the use of historical art for alternative Liberal and authoritarian ideals; the international cross-fertilisation of ideas about historical art; and exploration of the diverse influences of socioeconomic and geopolitical factors. This book will be of particular interest to scholars of the histories of nineteenth-century art and culture.

Nineteenth-century Fashion in Detail Lucy Johnston, Marion Kite, Helen Persson, 2005 A glorious companion volume to

Historical Fashion in Detail- The 17th and 18th Centuries and Modern Fashion in Detail, this book captures the opulence and variety of nineteenth-century fashion through an authoritative text, exquisite colour photography and line drawings of the complete garments. From the delicate embroidery on neoclassical gowns to the vibrant colours of crinolines and the elegant tailoring of men's coats, the richness of the period is revealed in breathtaking detail. The garments showcased here, drawn from the V&A Museum's world famous collection, were at the height of fashion in their time. They display a remarkable range of colours, materials and construction details- from the intricate boning on women's corsets to the patterned silk of men's waistcoats. Seen in close-up for the first time and further illuminated by detailed commentary and line drawings that show the ingenuity of the underlying construction, these carefully chosen garments illustrate some of the major themes of nineteenth-century dress.

The Routledge Handbook to Nineteenth-Century British Periodicals and Newspapers Andrew King,Alexis Easley,John Morton,2016-09-01 The 2017 winner of the Robert and Vineta Colby Scholarly Book Prize Providing a comprehensive, interdisciplinary examination of scholarship on nineteenth-century British periodicals, this volume surveys the current state of research and offers researchers an in-depth examination of contemporary methodologies. The impact of digital media and archives on the field informs all discussions of the print archive. Contributors illustrate their arguments with examples and contextualize their topics within broader areas of study, while also reflecting on how the study of periodicals may evolve in the future. The Handbook will serve as a valuable resource for scholars and students of nineteenth-century culture who are interested in issues of cultural formation, transformation, and transmission in a developing industrial and globalizing age, as well as those whose research focuses on the bibliographical and the micro case study. In addition to rendering a comprehensive review and critique of current research on nineteenth-century British periodicals, the Handbook suggests new avenues for research in the twenty-first century. This volume's 30 chapters deal with practically every aspect of periodical research and with the specific topics and audiences the 19th-century periodical press addressed. It also covers matters such as digitization that did not exist or were in early development a generation ago. In addition to the essays, readers will find 50 illustrations, 54 pages of bibliography, and a chronology of the periodical press. This book gives seemingly endless insights into the ways periodicals and newspapers influenced and reflected 19th-century culture. It not only makes readers aware of problems involved in interpreting the history of the press but also offers suggestions for ways of untangling them and points the direction for future research. It will be a valuable resource for readers with interests in almost any aspect of 19th-century Britain. Summing Up: Highly recommended - J. D. Vann, University of North Texas in CHOICE

Economy and Society in Nineteenth Century Britain Richard Tames,2005-11-03 First Published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

Nineteenth-Century Theories of Art Joshua C. Taylor, 1987 This unique and extraordinarily rich collection of writings offers a thematic approach to understanding the various theories of art that illumined the direction of nineteenth-century artists as diverse as Tommaso Minardi and Georges Seurat. It is significant that during the nineteenth century most artists felt compelled to found their artistic practice on a consciously established premise.

The Routledge History of the Domestic Sphere in Europe Joachim Eibach, Margareth Lanzinger, 2020-12-29 This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction and social relations, it shows continuities and social change in European history from an interior perspective. The Routledge History of the Domestic Sphere in Europe contains a variety of approaches from different regions that each pose a challenge to commonplace views such as the emergence of confessional cultures, of private life, and of separate spheres of men and women. By analyzing a plethora of manifold sources including diaries, court records, paintings and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy, and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants or apprentices, and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper-level graduates, postgraduates and experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work and private life in early modern and nineteenth-century Europe.

Noir Lee Hendrix, 2016-02-09 Due to the technological advances of the nineteenth century, an abundance of black drawing media exploded onto the market. Charcoal, conte crayon, and fabricated black chalks and crayons; fixatives; various papers; and many lifting devices gave rise to an unprecedented amount of experimentation. Indeed, innovation became the rule, as artists developed their own unique—and often experimental—processes. The exploration of black media in drawing is inextricably bound up with the exploration of black in prints, and this volume presents an integrated study that rises above specialization in one over the other. *Noir* brings together such diverse artists as Francisco de Goya, Maxime Lalanne, Gustave Courbet, Odilon Redon, and Georges Seurat and explores their inventive works on paper. Sidelining labels like “conservative” or “avant-garde,” the essays in this book employ all the tools that art history and modern conservation have given us, inviting the reader to look more broadly at the artists’ methods and materials. This volume accompanies an eponymous exhibition on view at the J. Paul Getty Museum from February 9 to May 15, 2016.

Reviewing **19th Century**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing. Within the pages of "**19th Century**," an enthralling opus penned by a very acclaimed wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve in to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
