My Life with Bob Pamela Paul, 2017-05-02 For twenty-eight years, Pamela Paul has been keeping a diary that records the books she reads, rather than the life she leads. Or does it? Over time, it's become clear that this Book of Books, or Bob, as she calls him, tells a much bigger story. For Paul, as for many readers, books reflect her inner life--her fantasies and hopes, her dreams and ideas. And her life, in turn, influences which books she chooses, whether for solace or escape, diversion or self-reflection, information or entertainment. My Life with Bob isn't about what's in those books; it's about the relationship between books and readers--

The New Asian Hemisphere Kishore Mahbubani,2010-11-12 For centuries, the Asians (Chinese, Indians, Muslims, and others) have been bystanders in world history. Now they are ready to become co-drivers. Asians have finally understood, absorbed, and implemented Western best practices in many areas: from free-market economics to modern science and technology, from meritocracy to rule of law. They have also become innovative in their own way, creating new patterns of cooperation not seen in the West. Will the West resist the rise of Asia? The good news is that Asia wants to replicate, not dominate, the West. For a happy outcome to emerge, the West must gracefully give up its domination of global institutions, from the IMF to the World Bank, from the G7 to the UN Security Council. History teaches that tensions and conflicts are more likely when new powers emerge. This, too, may happen. But they can be avoided if the world accepts the key principles for a new global partnership spelled out in The New Asian Hemisphere.

The Psychology of Money Morgan Housel,2020-09-08 Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In The Psychology of Money, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

The Big Book of the Blue Yuval Zommer,2018-07-24 After The Big Book of Bugs and The Big Book of Beasts, the hugely successful series Following the wild success of The Big Book of Bugs and The Big Book of Beasts, The Big Book of the Blue is

the third installment in Yuval Zommer's beloved series. Alongside everything the young oceanographer needs to know, Zommer's charming illustrations bring to life some of the slipperiest, scaliest, strangest, and most monstrous underwater animals. The book opens by explaining how different types of animals are able to breathe and survive underwater, and the different families to which they belong. Subsequent pages are dedicated to specific creatures, including sea turtles, whales, sharks, stingrays, and seahorses, and show varied life in specific habitats, such as a coral reef or deep sea bed. The Big Book of the Blue also explores the underwater world thematically, looking at animals in danger, learning how to spot creatures at the beach, and discovering how to do our part to save sea life. Beautiful and filled with fascinating facts, young, curious readers won't be able to tear their eyes away from the page.

Start With Why Simon Sinek, 2011-10-06 THE MILLION-COPY GLOBAL BESTSELLER - BASED ON THE LIFE-CHANGING TED TALK! DISCOVER YOUR PURPOSE WITH ONE SIMPLE QUESTION: WHY? 'One of the most incredible thinkers of our time; someone who has influenced the way I think and act every day' Steven Bartlett, investor, BBC Dragon and host of The Diary of a CEO podcast ***** Why are some people more inventive, pioneering and successful than others? And why are they able to repeat their success again and again? Because it doesn't matter what you do, it matters WHY you do it. Those who have had the greatest influence in the world all think, act, and communicate in the same way - and it's the opposite to most. In *Start with Why*, Simon Sinek uncovers the fundamental secret of their success. How you lead, inspire, live, it all starts with why. WHAT READERS ARE SAYING: 'It's amazing how a book can change the course of your life, and this book did that.' 'Imagine the Ted Talk expanded to 2 hours long, with more depth, intrigue and examples.' Book Lovers Emily Henry, 2022-05-03 "One of my favorite authors."—Colleen Hoover An insightful, delightful, instant #1 New York Times bestseller from the author of *Beach Read* and *People We Meet on Vacation*. Named a Most Anticipated Book of 2022 by Oprah Daily • Today • Parade • Marie Claire • Bustle • PopSugar • Katie Couric Media • Book Bub • SheReads • Medium • The Washington Post • and more! One summer. Two rivals. A plot twist they didn't see coming... Nora Stephens'

life is books—she’s read them all—and she is not that type of heroine. Not the plucky one, not the laidback dream girl, and especially not the sweetheart. In fact, the only people Nora is a heroine for are her clients, for whom she lands enormous deals as a cutthroat literary agent, and her beloved little sister Libby. Which is why she agrees to go to Sunshine Falls, North Carolina for the month of August when Libby begs her for a sisters’ trip away—with visions of a small town transformation for Nora, who she’s convinced needs to become the heroine in her own story. But instead of picnics in meadows, or run-ins with a handsome country doctor or bulging-forearmed bartender, Nora keeps bumping into Charlie Lastra, a bookish brooding editor from back in the city. It would be a meet-cute if not for the fact that they’ve met many times and it’s never been cute. If Nora knows she’s not an ideal heroine, Charlie knows he’s nobody’s hero, but as they are thrown together again and again—in a series of coincidences no editor worth their salt would allow—what they discover might just unravel the carefully crafted stories they’ve written about themselves.
