The Queen of the Night Alexander Chee, 2016-04-21 Recommended by The Observer . . . 'One doesn't so much read it, as one is bewitched by it. Epic, gorgeous, haunting' HANYA YANAGIHARA, author of *A Little Life* When it begins, it begins as an opera should begin: in a palace, at a ball, in an encounter with a stranger, who you discover has your fate in his hands . . . She is Lilliet Berne. And she is the soprano. 1882. One warm autumn evening in Paris, Lilliet is finally offered an original role, though it comes at a price. The part is based on her deepest secret. Only four people could have betrayed her: one is dead, one loves her still, one wants only to own her. And one, she hopes, never thinks of her at all. In taking this role Lilliet is forced to confront her darkest lies but will the truth save Lilliet - or destroy her? 'Brilliantly extravagant' VOGUE 'Terrific' NEW YORKER

**Evangellyfish** Douglas Wilson, 2012-01-31 BEST FICTION AWARD - Christianity Today 2012 Evangellyfish is a ruthless, grimly amused, and above all honest look at one of the darkest corners in the western world. Douglas Wilson, a pastor of more than thirty years, paints a vivid and painful picture of evangelical boomchurch leadership. . . in bed. Chad Lester's kingdom is found in the Midwest. His voice crawls over the airwaves, his books are read by millions (before he reads them),

and thousands ride the escalators into the sanctuary every Sunday. And Saturday. And Wednesday, too. He is the head pastor of Camel Creek--a CEO of Soul. And souls come cheap, so he has no overhead. When Lester is (falsely) accused of molesting a young male counselee, his universe begins to crumble. He is a sexual predator, yes. But strictly straight (and deeply offended that anyone would suggest otherwise). Detectives, reporters, assistant pastors, and old lovers and pay-offs all come out to play. John Mitchell is also a pastor, but he has no kingdom to speak of--only smalltime choir feuds. He is thrilled at the great man's fall, but his joy quickly fades when the imploding Lester calls him--and a lover or two--for help. How low can grace go? Whores, thieves, and junkies, sure. But pastors?

The Life and Times of Major Fiction Jonathan Baumbach, 1986 The fourteen stories that make up Jonathan Baumbach's eighth book of fiction deals with parents, children, love, basketball, billiards, reading, marriage, divorce--the essentials of everyday life which, through the author's unique strategy of narrative, come to the reader in unexpected ways. Combining comedy and nightmare, these stories distinguish themselves by the charge of their imaginative life, their concern with language, and the play and replay of their form. Familiar Games describes a one-on-one basketball game between a 12-year-old boy and his mother, a match that evokes a childhood memory of sexual mystery; Passion? concerns the disrepair of a marriage that has presented itself to friends and the world as ideal; Children of Divorced Parents centers on the problematic career of a filmmaker who, after several failed marriages, continues to pursue the illusion of first love; and the title story, The Life and Times of Major Fiction, investigates the mysterious career of a literary confidence man, an impassioned lover of good books, whose life is itself a pastiche of the plots of major fictions.

**The Self-Help Compulsion** Beth Blum, 2020-01-28 Samuel Beckett as a guru for business executives? James Joyce as a guide to living a good life? The notion of notoriously experimental authors sharing a shelf with self-help books might seem far-fetched, yet a hidden history of rivalry, influence, and imitation links these two worlds. In *The Self-Help Compulsion*, Beth Blum reveals the profound entanglement of modern literature and commercial advice from the late nineteenth century to the present day. Blum explores popular reading practices in which people turn to literature in search of practical advice alongside modern writers' rebukes of such instrumental purposes. As literary authors positioned themselves in opposition to people like Samuel Smiles and Dale Carnegie, readers turned to self-help for the promises of mobility, agency, and practical use that serious literature was reluctant to supply. Blum unearths a series of unlikely cases of the love-hate relationship between serious fiction and commercial advice, from Gustave Flaubert's mockery of early DIY culture to Dear Abby's cutting diagnoses of Nathanael West and from Virginia Woolf's ambivalent polemics against self-improvement to the ways that contemporary global authors such as Mohsin Hamid and Tash Aw explicitly draw on the self-help genre. She also traces the self-help industry's tendency to popularize, quote, and adapt literary wisdom and considers what it might have to teach today's university. Offering a new history of self-help's origins, appeal, and cultural and literary import around the world, this

book reveals that self-help's most valuable secrets are not about getting rich or winning friends but about how and why people read.

How to Write an Autobiographical Novel Alexander Chee, 2018-11-15 Shortlisted for the PEN/Diamonstein-Spielvogel Award for the Art of the Essay Named a Best Book of 2018 by TIME, Washington Post, Entertainment Weekly, Wired, Esquire, BuzzFeed, Paste, Bitch, Bustle, The Chicago Review of Books and iBooks As a novelist, Alexander Chee has been described as 'masterful' by Roxane Gay, 'incendiary' by the New York Times, and 'brilliant' by the Washington Post. With *How to Write an Autobiographical Novel*, his first collection of nonfiction, he secures his place as one of the finest essayists of his generation. *How to Write an Autobiographical Novel* is the author's exploration of the entangling of life, literature and politics, and how the lessons learned from a life spent reading and writing fiction have changed him. In these interconnected essays he constructs a self, growing from student to teacher, reader to writer, and reckoning with his identities as a son, a gay man, a Korean American, an artist, an activist, a lover and a friend. He examines some of the most formative experiences of his life and America's history, including his father's death, the AIDS crisis, 9/11, the jobs that supported his writing - Tarot-reading, bookselling, cater-waiting for William F. Buckley - the writing of his first novel, Edinburgh, and the election of Donald Trump. By turns commanding, heartbreaking and wry, *How to Write an Autobiographical Novel* asks questions about how we create ourselves in life and in art, and how to fight when our dearest truths are under attack.

**Thoughts on the Gita** Swami Vivekananda, 1963 The Bhagavad Gita is one of the most important scriptures of the Hindus. The very fact that this scripture has been commented upon by innumerable saints only highlights its great importance. This being the case, readers would find it deeply interesting to know what Swami Vivekananda had to say regarding it. In the pages of this booklet are found those wonderful ideas and authoritative statements regarding Gita by one who was aptly fit to bring out the hidden significance and essence of this great scripture. Published by Advaita Ashrama, a publication house of Ramakrishna Math, Belur Math, India.

*Ender's Game* Orson Scott Card, 2010-04-01 Orson Scott Card's *Ender's Game* is the winner of the Nebula and Hugo

Awards In order to develop a secure defense against a hostile alien race's next attack, government agencies breed child geniuses and train them as soldiers. A brilliant young boy, Andrew Ender Wiggin lives with his kind but distant parents, his sadistic brother Peter, and the person he loves more than anyone else, his sister Valentine. Peter and Valentine were candidates for the soldier-training program but didn't make the cut—young Ender is the Wiggin drafted to the orbiting Battle School for rigorous military training. Ender's skills make him a leader in school and respected in the Battle Room, where children play at mock battles in zero gravity. Yet growing up in an artificial community of young soldiers Ender suffers greatly from isolation, rivalry from his peers, pressure from the adult teachers, and an unsettling fear of the alien invaders. His psychological battles include loneliness, fear that he is becoming like the cruel brother he remembers, and fanning the flames of devotion to his beloved sister. Is Ender the general Earth needs? But Ender is not the only result of the genetic experiments. The war with the Buggers has been raging for a hundred years, and the quest for the perfect general has been underway for almost as long. Ender's two older siblings are every bit as unusual as he is, but in very different ways. Between the three of them lie the abilities to remake a world. If, that is, the world survives. A few Jews still live under assumed names. The 'I Ching' is prevalent in San Francisco. Science fiction meets serious ideas in this take on a possible alternate history.

Writing Design Fiction Tony Fry, 2021-10-21 Written by leading design philosopher Tony Fry, *Writing Design Fiction: Relocating a City in Crisis* is both an introduction to the power of “design fiction” in the design process, and a novella-length work of fiction in itself-telling the dramatic story of the relocation of the City of Harshon. Set in the near future, Harshon, a delta city, is facing environmental catastrophe due to rising sea levels-consequently, a decision is made to relocate the entire city inland. A diverse cast of voices-including an architect, a journalist, an economist, a construction worker, and residents-narrate the extraordinary challenges and complexities which follow. This work presents a real-world scenario which, in coming decades, will face many of the world's cities. The fictional format provides a novel way of exploring the very serious inherent technical, social, political, economic and cultural challenges. The story provides a rehearsal of the design challenges which are likely to face architects, planners, and designers in an uncertain global future. “Design fiction” is a fast-growing

area within design and architecture, increasingly deployed as a serious methodology by designers as a tool in scenario planning. Writing Design Fiction takes the practice to a higher level conceptually and theoretically, but also practically. The book is divided into four parts, with the fictional narrative bookended by further critical analysis. Part One shows how a critique of existing modes of design fiction can lead to more grounded and critical thinking and practice. Part Three critically reflects on the narrative, while Part Four presents the practical application of the second order design fiction approach. This book demonstrates the value of a more developed mode of design fiction to students, professional designers and architects across the breadth of design practices, as well as to other disciplines interested in the future of cities.

Invention James Dyson, 2021-09-02 Dyson has become a byword for high performing products, technology, design and invention. Now, James Dyson, the inventor and entrepreneur who made it all happen, tells his remarkable and inspirational story in *Invention: A Life*. Famously, over a four-year period, James Dyson made 5127 prototypes of the cyclonic vacuum cleaner that would transform the way houses are cleaned around the world. In devoting all his resources to iteratively developing the technology, he risked it all, but out of many failures and setbacks came hard-fought success. His products - including vacuum cleaners, hair dryers and hair stylers, and fans and purifiers - are not only revolutionary technologies, but design classics. This was a legacy of his time studying at the Royal College of Art in the 1960s, when he was inspired by some of the most famous artists, designers and inventors of the era, as well as his engineering heroes such as Frank Whittle and Alec Issigonis. In *Invention: A Life*, Dyson reveals how he came to set up his own company and led it to become one of the most inventive technology companies in the world. It is a compelling and dramatic tale, with many obstacles overcome. Dyson has always looked to the future, even setting up his own university to help provide the next generation of engineers and designers. For, as he says, 'everything changes all the time, so experience is of little use'. Whether you are someone who has an idea for a better product, an aspiring entrepreneur, whether you appreciate great design or a page-turning read, *Invention: A Life* offers you inspiration, hope and much more.
