*The Perfect Horoscope* John Willner,2001-03-20 The majority of horoscopes in current use are terribly wrong. Why? Because spiritual birth times, which are essential to producing an accurate horoscope according to Edgar Cayce, occur up to four-and-a-half hours before physical birth. That difference leaves aspects between planets about the same, but shifts all house cusps backward by up to one or two signs. Compared with most of today's faulty horoscopes, these perfect horoscopes match personas with awesome precision and provide greatly enhanced forecasting capabilities. This revolutionary book on astrology shows you how to (1) arrive at spiritual birth times, (2) apply two other fundamentals of astrology currently omitted from most horoscopes, and (3) verify your now totally functional horoscope. Topics covered in this book include: Who in recorded history may have been responsible for the mistakes of astrology, and its subsequent fall from grace o How to calculate accurate, soul-chosen horoscopes; What steps can be taken to verify a soul chosen horoscope; Why progressions-not transits-mark the stepping-stones of life; When horoscopes can be used to confirm fundamentals and reject damaging false

ideas (such as the first breath theory); Which concepts will change as we move from the Piscean Age of tolerant opinions to the Aquarian Age of benevolent intelligence.

**How to Read a Horoscope** P. V. R. Rayudu,1997 Planets are positioned in different Rasis (signs) and Bhavas (houses) with respect to a particular ascendant at the particular time of birth. Accordingly, each planet is subjected to many influences as per its placement in a particular rasi and bhava with respect to the placement of other planets. As such, the benefit and malefic tendencies of each planet differ in each horoscope. For example, the benefic or malefic tendency of a planet may differ as per its placement in exaltation/ debilitation rasi, own rasi/star, friendly/enemy rasi/star, different bhavas as per its own lordship and as per its associations and aspects by other friendly/enemy planets, etc. Each of these placements, aspects, associations are not of equal importance and each bhava is also subjected to the influence of different planets. In this book, a methodology is given to evolve the benefic and malefic percentage of a planet and bhavas in a

horoscope considering all the influences that they would be subjected to along with suitable weights for each type of the influence. The predictions of all planets as per their benefic or malefic tendencies with respect to their placement in different races and bhavas are enumerated separately under different topics of body, health, temperament and personality, wealth, courage, education, houses and landed property, happiness, children, diseases, enemies, debts, marriage and marital relationship, longevity, prosperity, professions, gains and income, losses and expenditure. Planets are subjected to different influences in a horoscope and they are analysed scientifically giving suitable weights for every condition to arrive at the benefic and malefic percentage of each planet. Similarly bhavas are analysed. Based on these benefic & malefic percentage analysis of planets & bhavas, broad life and yearly predictions can be given. The whole scheme is computerised.

**The Progressed Horoscope** Alan Leo, 2024-02-11 The principal use to which astrology is applied by those who fail to realise its true purpose takes the form of searching for future happenings, so that predictions may be made and the future known, to a greater or lesser extent according to the skill of the practitioner. Now it is quite true that the future may be foreseen more or less in every nativity, yet while some persons will respond to every vibration (whether good or evil) that affects them from without, others will not so respond, either from lack of sensitiveness, or else through the exercise of a strong will trained to control the sheaths or vehicles of response.
