*Palmistry, a True Science* Anu Venkat, 2002 The book PALMISTRY, A TRUE SCIENCE, is a carefully compiled book which contains 13 theories, 210 sketches of lines of the human palms, 64 case studies, 61 clearly and uniquely taken palm impressions. Ever since the origination of this subject, this is the first time that the human palms have been thoroughly analyzed with reference to both the palms. For the author, the left hand and the right hand of 1000's of cases functioned as one whole comprehensive unit to enable him to compare the structural inter-relationships between different lines. The net result was that he could decipher the differences in dimensions between the left and the right palms such as - difference in lengths, slope, shortness, direction, location, fading characteristics, whether present in one or both the palms etc. The above aspect in his approach to the research was aimed at finding just the structural aspects of the lines on human palms. The other side of the coin is to relate the functions (events, diseases and temperaments) to the line patterns already discovered by the author. For this part of the research, he had to employ sophisticated techniques that only an investigator, a logician, an analyst or a statistician could have employed. In other words, the author employed some of the appropriate human qualities such as tact, wildest imagination, deep analytical power, trial and error method, wild guesses and compilation techniques so that he could bind together all the varied structural and functional extravaganzas present in the hands of his innumerable clients, into cohesive, presentable as well as verifiable rules and theories. Keeping in mind the vast dimension of this great science, the author could accommodate only 3 functions [MONEY and BUSINESS, JOB/CAREER and OVERSEAS TRAVEL / STAY] in this book. His forthcoming books deal with other life events, diseases and human temperaments. This book boasts of so many firsts. To quote some examples: 1) No book has documented any provable, testable theories (13 in number) in such a minute degree. In the process, this book has secured an exalted status to PALMISTRY as a TRUE SCIENCE. It goes without saying that palm reading is a scientific exercise - on par with any other science. 2) No book has featured as many as 64 case studies, and 61 clear palm impressions ( A very high number!! of real examples for a book of this genre--an all time record, all accommodated in just 250 pages 3) One among many highlights of the book is that almost all the palm impressions have been marked out and their corresponding function(s) indicated [A first-time-ever phenomenon] which enhances its authenticity as well as proves its scientific nature. 4) Genuineness of the whole venture lies in the fact that the whole edifice of this book rests on the solid foundation of real life events / diseases / temperaments of all his clients. [

Principles, rules and theories -all derived from these real stories] 5) And the people, the world over, are going to be exposed to an entirely new subject, for the most part of the book (about 95%) is hitherto unheard-of. 6) Last, but not the least, this book has the great potential to spawn a new breed of researchers, as this subject has immense scope for further research. In a world of continuing research, even one discovery fetches world acclaim and recognition, one can imagine what lies in store for this book, which has innumerable discoveries dotting the entire book. The Art of Palmistry Ray Douglas, 2009 Palmistry is not a science, nor is it a pseudo-science. It is an art: the art of using

the hand, or both hands taken together, to symbolise the whole person. Forming a pattern unique to the individual in every tiny detail, a person's hand can be seen to represent his or her entire life, their personality, talents, strengths and weaknesses, health, fortune and the fates which may befall them. This book starts with the basics and presents the subject in a way that is easy to learn. It will tell you all you need to know to become a successful palmist, for fun or profit.

**A COMPREHENSIVE GUIDE TO PALMISTRY** Cassandra Hanna, 2019-10-25 A Comprehensive Guide to PALMISTRY, The Language of Hands is the titled of the revised edition of the book. It is easy to read and understand for everyone wanting to read palms. As you read, you will discover the secrets hidden in the hand, your hand. The palm is like a road map of lines and markings telling whether your travels in life will be smooth or bumpy. It tells of your potential and what you have accomplished in life. What will your road map reveal? All answers can be found in the palms!

Palmistry Peter Hazel, 2001 Your hand is a map reflecting your personality, your past, and your personal potential. This book's unique illustrated and interactive format is designed to give you instant access to the ancient art of palmistry. As you answer a series of simple questions, you'll discover how easy it really is--even the novice can begin reading hands immediately! You'll learn how to interpret the length of the palm and fingers, the four hand types, thumbs, marks on the fingers, the lines, fingernails, the mounts, timing in the palm, and even the meaning of rings. Palmistry Quick & Easy also includes information not found in other palmistry books. Notes for lovers, parents, managers, and astrologers will add depth and additional insights into the important relationships in your life. Without saying a word, your hands speak volumes about your personality. For example, the shape and size of your hand can help you gain insight into your strengths and weaknesses. Do you have a long palm with long, slender fingers? If so, you have a water hand, which means you are a sensitive, sympathetic, and intuitive person who probably relies on emotions to make decisions. You may have to be careful of being overly self-critical. Do you have a short palm with short fingers? Then you've got an earth hand, and you are practical, reliable, and productive, although you may have to watch out for becoming too single-minded or authoritarian. Palmistry is also fun--in any social gathering, mention that you read palms and you'll soon have a crowd of people eager to find out more about themselves. Palmistry Quick & Easy is just that: quick and easy. With its detailed question-and-answer format, you'll gain a deeper understanding of yourself and the people around you--just by listening to what their hands have to say.

*Destiny Palmistry 2* Sari Puhakka, 2018-04-16 All the lines on your palm and what they mean. The first book in this series, 'Destiny Palmistry - Character Awareness, ' I talked about the fundamental basics of the hand, thumb, and fingers as well as the mounts and nails. Beginning with these essentials, it gives us the foundation for performing a good palm reading. These conclusions, used in conjunction with the lines, prepare for a better understanding of their significance. I created this book for those of you who are interested in palmistry as a beginner and for those who believe there is some truth in respect to the psychoanalysis, as well as predictive aspects of reading hands. I have for this purpose included many traditional meanings as

well as modern views based on my experience
