Invisible Women Caroline Criado Perez,2019-03-07 *THE SUNDAY TIMES NUMBER ONE BESTSELLER* *OVER HALF A MILLION COPIES SOLD* Discover the shocking gender bias that affects our everyday lives. 'HELL YES. This is one of those books that has the potential to change things - a monumental piece of research' Caitlin Moran Imagine a world where...
· Your phone is too big for your hand · Your doctor prescribes a drug that is wrong for your body · In a car accident you are 47% more likely to be injured. If any of that sounds familiar, chances are you're a woman. From government policy and medical research, to technology, workplaces, and the media. Invisible Women reveals how in a world built for and by men we are systematically ignoring half of the population, often with disastrous consequences. Caroline Criado Perez brings together for the first time an impressive range of case studies, stories and new research from across the world that illustrate the hidden ways in which women are forgotten, and the profound impact this has on us all. Find out more in Caroline's new podcast, Visible Women. 'A book that changes the way you see the world' Sunday Times 'Revelatory, frightening, hopeful' Jeanette Winterson

Singapore Women's Charter Theresa W. Devasahayam,2011 The chapters in this book are an assembly of commentaries by a distinguished team of specialists on the social impact of the Singapore Women's Charter on women and men. The Women's Charter is the main legislation protecting women's rights in the context of the family in Singapore. Highlights of this book include the reasons for the significance of legislation to protect women's rights in marriage; how the

legislation came about; case studies from Southeast Asia; how the Singapore Women's Charter evolved and became established; how the Charter goes beyond protecting women's rights by reinforcing men's and women's obligations and duties in a marital partnership; how the Charter has come to be perceived by men and women especially in its enforcement in the context of divorce; and the social repercussions of the Charter on the family in its application. There has been ongoing discussion on the implications of the Charter on the lives of Singaporean women and men for some years since its implementation. The purpose of this book is to enrich our understanding of this legislation further - its objectives, efficacy and shortfalls.

What Happened to the Women? Ruth Rubio-Marín, 2006 What happens to women whose lives are affected by human rights violations? What happens to their testimony in court or in front of a truth commission? Women face a double marginalization under authoritarian regimes and during and after violent conflicts. Yet reparations programs are rarely designed to address the needs of women victims. *What Happened to the Women? Gender and Reparations for Human Rights Violations* emphasizes the necessity of a gender dimension in reparations programs to improve their handling of female victims and their families. A joint project of the International Center for Transitional Justice and Canada's International Development Research Centre, *What Happened to the Women?* includes studies of gender and reparations policies in Guatemala, Peru, Rwanda, Sierra Leone, South Africa, and Timor-Leste. Contributors represent a wide range of fields related to transitional justice and include international human rights lawyers, members of truth and reconciliation commissions, and NGO representatives.

The Subjection of Women John Stuart Mill, Harriet Taylor Mill, 2009-05-01 John Stuart Mill's 1869 essay *The Subjection of Women* argues for equality between the sexes, putting forward ideas that were an affront to many at the time. His wife, Harriet Taylor Mill, is credited with co-authoring the essay. *The Subjection of Women* puts forward a detailed and passionate opposition to the social and legal inequalities imposed on women by society. Mill saw that he was going against the grain of the time, but argued that such inequality was a past relic from a time when might equaled right and that it had no place in the modern world. Inequality between the sexes limited human development as it made half of humanity unable to contribute to society outside of their own homes.

Where Are the Women? Sarah Tyson, 2018-10-16 Philosophy has not just excluded women. It has also been shaped by the exclusion of women. As the field grapples with the reality that sexism is a central problem not just for the demographics

of the field but also for how philosophy is practiced, many philosophers have begun to rethink the canon. Yet attempts to broaden European and Anglophone philosophy to include more women in the discipline's history or to acknowledge alternative traditions will not suffice as long as exclusionary norms remain in place. In *Where Are the Women?*, Sarah Tyson makes a powerful case for how redressing women's exclusion can make philosophy better. She argues that engagements with historical thinkers typically afforded little authority can transform the field, outlining strategies based on the work of three influential theorists: Genevieve Lloyd, Luce Irigaray, and Michèle Le Doeuff. Following from the possibilities they open up, at once literary, linguistic, psychological, and political, Tyson reclaims two passionate nineteenth-century texts—the Declaration of Sentiments from the 1848 Seneca Falls Convention and Sojourner Truth's speech at the 1851 Akron, Ohio, Women's Convention—showing how the demands for equality, rights, and recognition sought in the early women's movement still pose quandaries for contemporary philosophy, feminism, and politics. *Where Are the Women?* challenges us to confront the reality that women's exclusion from philosophy has been an ongoing project and to become more critical both of how we see existing injustices and of how we address them.

Japanese Women Takie Sugiyama Lebra, 1985-08-01 Japan, a decade behind the United States, is now expressing its awareness of women as a major social issue. This awareness manifests itself in floods of publications, television coverage, the burgeoning of women's studies groups, court rulings interfering with sex discrimination, appointments of women to prominent positions thus far reserved exclusively for men, admission of women to such institutions as the Self Defense Forces, police, athletics, and so on.

Leftover Women Leta Hong Fincher, 2016-07-31 'Scattered with inspiring life-stories of courageous women.' The Guardian In the early years of the People's Republic, the Communist Party sought to transform gender relations. Yet those gains have been steadily eroded in China's post-socialist era. Contrary to the image presented by China's media, women in China have experienced a dramatic rollback of rights and gains relative to men. In *Leftover Women*, Leta Hong Fincher exposes shocking levels of structural discrimination against women, and the broader damage this has caused to China's economy, politics, and development.

Unwell Women Elinor Cleghorn, 2021-06-10 'Seamlessly melding scholarship with passion, *Unwell Women* is the definition of unputdownable' Telegraph 'A richly detailed, wide-ranging and enraging history... *Unwell Women* is not just a compelling investigation, but an essential one' Observer 'A passionate and indignant history' The Times 'A searing, brilliant investigation, an intricate and urgent book on how women's health has constantly been misunderstood and miscast throughout history' Kate Williams 'One of the most important books of our generation' Fern Riddell '*UNWELL WOMEN* is a powerful and fascinating book that takes an unsparing look at how women's bodies have been misunderstood and

misdiagnosed for centuries.' Lindsey Fitzharris 'We are taught that medicine is the art of solving our body's mysteries. And as a science, we expect medicine to uphold the principles of evidence and impartiality. We want our doctors to listen to us and care for us as people, but we also need their assessments of our pain and fevers, aches and exhaustion to be free of any prejudice about who we are, our gender, or the colour of our skin. But medicine carries the burden of its own troubling history. The history of medicine, of illness, is a history of people, of their bodies and their lives, not just physicians, surgeons, clinicians and researchers. And medical progress has always reflected the realities of a changing world, and the meanings of being human.' In *Unwell Women* Elinor Cleghorn unpacks the roots of the perpetual misunderstanding, mystification and misdiagnosis of women's bodies, and traces the journey from the 'wandering womb' of ancient Greece, the rise of witch trials in Medieval Europe, through the dawn of Hysteria, to modern day understandings of autoimmune diseases, the menopause and conditions like endometriosis. Packed with character studies of women who have suffered, challenged and rewritten medical orthodoxy - and drawing on her own experience of un-diagnosed Lupus disease - this is a ground-breaking and timely exposé of the medical world and woman's place within it.

Why Women Kill Vickie Jensen, 2001 Traditional homicide indicators are based on male violence - and do little to predict when, or whom, women will kill. Vickie Jensen shows that gender equality plays an important role in predicting female homicide patterns. Jensen's analysis of the occurrence of women's homicide reveals that lethal violence is most likely when severe gender inequalities exist in the family group. Her conclusions establish the clear relationship between political, economic, legal, and social equality for women and the reduction of all forms of domestic violence.

The Confucian Four Books for Women, 2018-04-02 This volume presents the first English translation of the Confucian classics, *Four Books for Women*, with extensive commentary by the compiler, Wang Xiang, and introductions and annotations by translator Ann A. Pang-White. Written by women for women's education, the *Confucian Four Books for Women* spanned the 1st to the 16th centuries, and encompass Ban Zhao's *Lessons for Women*, Song Ruoxin's and Song Ruozhao's *Analects for Women*, Empress Renxiaowen's *Teachings for the Inner Court*, and Madame Liu's (Chaste Widow Wang's) *Short Records of Models for Women*. A female counterpart to the famous *Sishu* (Four Books) compiled by Zhu Xi, Wang Xiang's *Nü sishu* provides an invaluable look at the long-standing history and evolution of Chinese women's writing, education, identity, and philosophical discourse, along with their struggles and triumphs, across the millennia and numerous Chinese dynasties. Pang-White's new translation brings the authors of the *Four Books for Women* to life as real, living people, and illustrates why they wrote and how their work empowered women.
