**Command and General Staff Officer Education for the 21st Century Examining the German Model** Major Luke G. Grossman USAF, 2015-11-06 Education has been the foundational cornerstone to every profession and continues to be so in the 21st Century. As a profession, the military is obligated to conduct not only training but also education of the keepers of the profession, the officer corps. Since the rise of large military bodies enabled by the levee en masse and industrialization, armies have required educated officers skilled in both command and staff functions. The Prussian-German model of staff officer education embodied in the Kriegsakademie of the Nineteenth and first half of the Twentieth Century's, was highly regarded and much copied. The education officer received at the Kriegsakademie directly contributed to an efficiently organized and employed Prussian-German Army at the tactical and operational levels. The investment in Kriegsakademie officer education paid huge dividends at Gravelotte-St Privat and Sedan 1870, Tannenberg 1914, Battle of Poland 1939, and the Battle of France 1940, critical first battles. With the rearming of Germany in 1955 came the need for the fledgling Bundeswehr to educate general staff officers. This need was met by establishing the Führungsakademie (German Armed Forces Command and Staff College). The Führungsakademie was created with the same time honored principles that had served general staff officer training previously: careful selection of the most highly qualified and promising officers and a broad based education rigorously applied. However, little information on the current Führungsakademie Education System is available in the English language. This monograph attempts to address this void. The author conducted research and interviews with the faculty, staff, and students at the Führungsakademie in Hamburg, Germany in order to understand and assess the education given to German general staff officer aspirants. The central general staff officer's education course is the National General/Admiral Staff Officers Course.

Brigadier General John Adams, CSA Leslie R. Tucker, 2013-10-30 John Adams is best remembered as one of the four Confederate generals who lay on the porch of the Carnton House, dead, when the Battle of Franklin ended on December 1, 1864. Unfortunately he did not leave much in the way of personal papers, and this biography has been pieced together from Army records and other sources, including accounts of his contemporaries. Adams's career in the U.S. Army gives us a good look at the military, the concept of Manifest Destiny, and the relations with those conquered by the Army, the Indians. This book also considers one of the more debated topics in Civil War history: why did a man who served the United States for

most of his life resign his commission and side with the Confederacy?

**The Book of General Ignorance** John Mitchinson,John Lloyd,2007-08-07 NEW YORK TIMES BESTSELLER •

Misconceptions, misunderstandings, and flawed facts finally get the heave-ho in this humorous, downright humiliating book of reeducation based on the phenomenal British bestseller. Challenging what most of us assume to be verifiable truths in areas like history, literature, science, nature, and more,The Book of General Ignorance is a witty “gotcha” compendium of how little we actually know about anything. It’ll have you scratching your head wondering why we even bother to go to school. Think Magellan was the first man to circumnavigate the globe, baseball was invented in America, Henry VIII had six wives, Mount Everest is the tallest mountain? Wrong, wrong, wrong, and wrong again. You’ll be surprised at how much you don’t know! Check out The Book of General Ignorance for more fun entries and complete answers to the following: How long can a chicken live without its head? About two years. What do chameleons do? They don’t change color to match the background. Never have; never will. Complete myth. Utter fabrication. Total Lie. They change color as a result of different emotional states. How many legs does a centipede have? Not a hundred. How many toes has a two-toed sloth? It’s either six or eight. Who was the first American president? Peyton Randolph. What were George Washington’s false teeth made from? Mostly hippopotamus. What was James Bond’s favorite drink? Not the vodka martini.

A Good General Dag Heward-Mills,2015-07 Do you know that a mans life upon the earth is warfare? We are at war whether we choose to be at war or not. The Bible says that your life is warfare. You must fight the good fight and win the war. This new book on warfare is a must read for all leaders.

**The General Factor of Personality** Janek Musek,2017-04-07 The General Factor of Personality improves our understanding of the personality structure and the relations between major personality dimensions, as well as major dimensions of the entire non-cognitive sphere of psychological variables. The results of the empirical testing and theoretical evaluations in this book contribute to the more comprehensive and precise theoretical framework of the General Factor of Personality (GFP) and that of the entire personality structure. Additionally, the book answers some unresolved questions concerning the nature of the GFP, including whether it is based more on correlations in real behavior or on other less substantial factors between lower-order dimensions of personality. This book is crucially important not only for theoretical reasons, but also for the tremendous practical and applied value of the assumed general dimension of personality. As a common denominator of all the most important fields of personality beyond cognition (Big Five, well-being, coping, emotionality, motivation, self-concept, self-esteem, control, wisdom and others), the GFP represents an extremely strong single predictor of the quality of life, mental health and well-being, career, academic success, and the quality of family and interpersonal relations. Reviews the theoretical and methodological work on the General Factor of Personality (GFP) Presents major research results in the field of GFP and the dimensional structure of personality Provides a balanced and objective approach to the topic of GFP, addressing criticisms and controversies Considers the practical and applied aspects of this research Draws conclusions on the bioevolutionary model of GFP to give a more thorough understanding of biological bases of human personality

HISTORY OF WAR

**Secretary or General?** Simon Chesterman, 2007-01-29 The Secretary-General of the United Nations is a unique figure in world politics. At once civil servant, the world's diplomat, lackey of the UN Security Council, and commander-in-chief of up to a hundred thousand peacekeepers, he or she depends on states for both the legitimacy and resources that enable the United Nations to function. The tension between these roles - of being secretary or general - has challenged every incumbent. This book brings together the insights of senior UN staff, diplomats and scholars to examine the normative and political factors that shape this unique office with particular emphasis on how it has evolved in response to changing circumstances such as globalization and the onset of the 'war on terror'. The difficulties experienced by each Secretary-General reflect the profound ambivalence of states towards entrusting their security, interests or resources to an intergovernmental body.
