Action Movies Harvey O'Brien, 2012-11-20 Action Movies: The Cinema of Striking Back is a study of action cinema, exploring the ethics and aesthetics of the genre with reference to its relatively short history. It moves from seminal classics like Bullitt (1968) and Dirty Harry (1971) through epoch-defining films like Rambo: First Blood Part II (1985) and Die Hard (1988) to revisions, reboots, and renewals in films like Kill Bill Vol. 1 (2003), Taken (2008), and The Expendables (2010). The action genre is a fusion of form and content: a cinema of action about action. It is a cinema of the will, configured as a decisive reaction to untenable circumstances. Action heroes take up arms against the sea of troubles that beset them, safe in the knowledge that if they don't do it, nobody will. Though this makes the action movie profoundly disturbing as an embodiment of moral ideology, its enduring appeal proves the appetite for assurance remains undiminished, even in the wake of 9/11.

It explores what draws an audience to the thrills of these tense roller-coaster rides on the big screen. Is it an appetite for violence or simply a desire to see the good guys get justice? Action movies made actors like Bruce Willis into household names for their death-defying onscreen escapades. From Sean Connery to Sylvester Stallone, these larger-than-life heroes have kept us on the edge of our cinema seats. Arnie told us he would be back, Bruce Lee made martial arts ultra cool, and Angelina Jolie brought a video game vividly to life. And our appetite for derring-do remains unabated as we watch the Dark Night battle with evil villains. With

insight from critics, film historians, and academics, 101 Action Movies You Must See Before You Die brings knowledge, insight, and passion to a world where tough men sip martinis, wear tights and capes, and sometimes even turn green. But they can still get the girl, save the world, and crush cyborgs, psychopaths, jokers, and aliens along the way. So hold on tight to your seats for the mission ahead.. (back flap) Steven Jay Schneider is a film critic, scholar, and producer with an academic degree in philosophy from Harvard University and in cinema studies from New York University. The DV Rebel's Guide Stu Maschwitz, 2006-12-23 Written by Stu Maschwitz, co-founder of the Orphanage (the legendary guerrilla visual effects studio responsible for amazing and award-winning effects in such movies as Sin City, The Day After Tomorrow, and Harry Potter and the Goblet of Fire), this book is a must-have for all those budding filmmakers and students who want to produce action movies with visual effects but don't have Hollywood budgets. The Orphanage was created by three twenty-something visual effects veterans who wanted to make their own feature films and discovered they could do this by utilizing home computers, off the shelf software, and approaching things artistically. This guide details exactly how to do this: from planning and selecting the necessary cameras, software, and equipment, to creating specific special effects (including gunfire, Kung Fu fighting, car chases, dismemberment, and more) to editing and mixing sound and music. Its mantra is that the best, low-budget action moviemakers must visualize the end product first in order to reverse-engineer the least expensive way to get there. Readers will learn how to integrate visual effects into every aspect of filmmaking--before filming, during filming and with in camera shots, and with computers in postproduction. Throughout the book, the author makes specific references to and uses popular action movies (both low and big-budget) as detailed examples--including El Mariachi, La Femme Nikita, Die Hard, and Terminator 2. Note from the Publisher: If you have the 3rd printing of The DV Rebel's Guide, your disc may be missing the data files that accompany the book. '80s Action Movies on the Cheap Daniel R. Budnik, 2017-03-24 The 1980s was the decade when the action film as it's now known came into being. Nonstop, big-budget excitement became the standard as epic adventures like Raiders of the Lost Ark and The Road Warrior set the tone for the summer blockbusters of Sylvester Stallone, Arnold Schwarzenegger and Chuck Norris. Homages (and ripoffs) made with lesser budgets followed every hit, especially with the advent of direct-to-video releases. Providing detailed commentary on 284 films, this book explores the excitement, audacity and sheer weirdness of '80s low budget action cinema, from the American Ninja series to dime-a-dozen barbarian pictures to such bargain-basement productions as The Courier of Death, Kill Squad and Samurai Cop.

Explodobook John Rain, 2021-10-21 The 1980s. A time of fear: fear of the unknown, fear of your neighbours, fear of drugs, fear of sex, fear of strangers, fear of videos, and the very real fear that the world would end at any moment in an awful, and very sudden, nuclear attack. However, in those times of turmoil and worry, there was a comfort that soothed the mind, and acted as a quiet balm: action movies. Video shops were bursting at the seams with rampant gunfire, sex, drugs, rock, roll, cars on fire, people on fire, guns, bombs, and people dressed in army fatigues (and that was just the staff). Heroes were born shrouded in fire and violent revenge, they were not only armed with guns, but also red-hot quips, that served as a muscly arm around the shoulder, and a wink that everything was going to be okay. So thank you Arnold, Sylvester, Sigourney, Bruce, Eddie, Charles, Patrick, Mel, Chuck and everyone else that made it happen. You saved the world, in your own inimitable way. Join John Rain, the author of the critically-acclaimed Thunderbook: The World of Bond According to Smersh Pod, as he examines a choice selection of the greatest action movies from the decade when the explosion was king.
