A Little History of the World E. H. Gombrich, 2014-10-01 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

The chapters are articulated around the themes of public history, the politics of history, the role of history in the shaping of learning and the situation of history in the changing world of education. **Teaching World History as Mystery** Jack Zevin, David Gerwin, 2010-12-07 Offering a philosophy, methodology, and examples for history instruction that are active, imaginative, and provocative, this text presents a fully developed pedagogy based on problem-solving methods that promote reasoning and judgment and restore a sense of imagination and participation to classroom learning. It is designed to draw readers into the detective process that characterizes the work of professional historians and social scientists – sharing raw data, defining terms, building interpretations, and testing competing theories. An inquiry framework drives both the pedagogy and the choice of historical materials, with selections favoring the unsolved, controversial, and fragmented rather than the neatly wrapped up analysis of past events. *Teaching World History as Mystery*: Provides a balanced combination of interestingly arranged historical content, and clearly explained instructional strategies Features case studies of commonly and not so commonly taught topics within a typical

world/global history curriculum using combinations of primary and secondary documents Discusses ways of dealing with ethical and moral issues in world history classrooms, drawing students into persisting questions of historical truth, bias, and judgment

**Studies in the History of the Near East** P.M. Holt, 2013-10-28 First Published in 1973. This volume brings together a number of studies concerned with the Near East and its history from the sixteenth century. They fall into three groups. The first is concerned with English Arabists of the seventeenth and early eighteenth centuries, and particularly with Edward Pococke. The papers in the second group deal with the history of the Nilotic Sudan, and especially attempt to exploit the sparse source-materials available on the Funj Sultanate and to throw some light on developments between the sixteenth and the nineteenth century. Another dark age in modern Near Eastern history is the subject of the third group of papers-the period of Egyptian history from the Ottoman conquest in 1517 to the French occupation in 1798.
