On Literature Hillis Miller,2003-09-02 Debates rage over what kind of literature we should read, what is good and bad literature, and whether in the global, digital age, literature even has a future. But what exactly is literature? Why should we read literature? How do we read literature? These are some of the important questions J. Hillis Miller answers in this beautifully written and passionate book. He begins by asking what literature is, arguing that the answer lies in literature's

ability to create an imaginary world simply with words. On Literature also asks the crucial question of why literature has such authority over us. Returning to Plato, Aristotle and the Bible, Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories. Above all, On Literature is a plea that we continue to read and care about literature.

"What is Literature?" and Other Essays Jean-Paul Sartre, 1988 What is Literature? challenges anyone who writes as if literature could be extricated from history or society. But Sartre does more than indict. He offers a definitive statement about the phenomenology of reading, and he goes on to provide a dashing example of how to write a history of literature that takes ideology and institutions into account.

Why Reading Books Still Matters Martha C. Pennington, Robert P. Waxler, 2017-08-29 Bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism, mass media, and digital culture on the lives of children, this book challenges the potential of science and business to solve the world's problems without a complementary emphasis on social values. The selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change. The book offers a valuable foundation for the field of literacy education by providing knowledge about the importance of language and literature that educators can use in their own teaching and advocacy work.

On Linger and Literature Harold Schweizer, 2021-03-25 Linger and its decried equivalents, such as dawdling, idling, loafing, or lolling about, are both shunned and coveted in our culture where time is money and where there is never quite enough of either. Is lingering lazy? Is it childish? Boring? Do poets linger? (Is that why poetry is boring?) Is it therapeutic? Should we linger more? Less? What happens when we linger? Harold Schweizer here examines an experience of time that, though common, usually passes unnoticed. Drawing on a wide range of philosophic and literary texts and examples, On Linger and Literature exemplifies in its style and accessible argumentation the new genre of post-criticism, and aims to reward anyone interested in slow reading, daydreaming, or resisting our culture of speed and consumption.

Bourdieu and Literature John R. W. Speller, 2011 Bourdieu and Literature is a wide-ranging, rigorous and accessible introduction to the relationship between Pierre Bourdieu's work and literary studies. It provides a comprehensive overview

and critical assessment of his contributions to literary theory and his thinking about authors and literary works. One of the foremost French intellectuals of the post-war era, Bourdieu has become a standard point of reference in the fields of anthropology, linguistics, art history, cultural studies, politics, and sociology, but his longstanding interest in literature has often been overlooked. This study explores the impact of literature on Bourdieu's intellectual itinerary, and how his literary understanding intersected with his sociological theory and thinking about cultural policy. This is the first full-length study of Bourdieu's work on literature in English, and it provides an invaluable resource for students and scholars of literary studies, cultural theory and sociology.

Ambient Literature Tom Abba, Jonathan Dovey, Kate Pullinger, 2020-11-30 This book considers how a combination of place-based writing and location responsive technologies produce new kinds of literary experiences. Building on the work done in the Ambient Literature Project (2016-2018), this book argues that these encounters constitute new literary forms, in which the authored text lies at the heart of an embodied and mediated experience. The visual, sonic, social and historic resources of place become the elements of a live and emergent *mise-en-scène*. Specific techniques of narration, including hallucination, memory, history, place based writing, and drama, as well as reworking of traditional storytelling forms combine with the work of app and user experience design, interaction, software authoring, and GIS (geographical information systems) to produce ambient experiences where the user reads a textual and sonic literary space. These experiences are temporary, ambiguous, and unpredictable in their meaning but unlike the theatre, the gallery, or the cinema they take place in the everyday shared world. The book explores the potentiality of a new literary form produced by the exchange between location-aware cultural objects, writers and readers. This book, and the work it explores, lays the ground for a new poetics of situated writing and reading practices.

Anti-Literature Adam Joseph Shellhorse, 2017-07-28 Anti-Literature articulates a rethinking of what is meant today by "literature." Examining key Latin American forms of experimental writing from the 1920s to the present, Adam Joseph Shellhorse reveals literature's power as a site for radical reflection and reaction to contemporary political and cultural conditions. His analysis engages the work of writers such as Clarice Lispector, Oswald de Andrade, the Brazilian concrete poets, Osman Lins, and David Viñas, to develop a theory of anti-literature that posits the feminine, multimedial, and subaltern as central to the undoing of what is meant by "literature." By placing Brazilian and Argentine anti-literature at the crux of a new way of thinking about the field, Shellhorse challenges prevailing discussions about the historical projection and critical force of Latin American literature. Examining a diverse array of texts and media that include the visual arts, concrete poetry, film scripts, pop culture, neo-baroque narrative, and others that defy genre, Shellhorse delineates the subversive potential of anti-literary modes of writing while also engaging current debates in Latin American studies on subalternity, feminine writing, posthegemony, concretism, affect, *marranismo*, and the politics of aesthetics.

English Literature William J. Long, 2019-11-20 English Literature: Its History and Its Significance for the Life of the English-Speaking World by William J. Long resents the whole splendid history of English literature from Anglo-Saxon times to the close of the Victorian Era. It's a useful and interesting guide for students as well as teachers of English literature, specially European and American, despite over a hundred years passing since the time of its first publication.

Prizing Children's Literature Kenneth B. Kidd, Joseph T. Thomas Jr., 2016-11-10 Children's book awards have mushroomed since the early twentieth-century and especially since the 1960s, when literary prizing became a favored strategy for both commercial promotion and canon-making. There are over 300 awards for English-language titles alone, but despite the profound impact of children's book awards, scholars have paid relatively little attention to them. This book is the first scholarly volume devoted to the analysis of Anglophone children's book awards in historical and cultural context. With attention to both political and aesthetic concerns, the book offers original and diverse scholarship on prizing practices and their consequences in Australia, Canada, and especially the United States. Contributors offer both case studies of particular awards and analysis of broader trends in literary evaluation and elevation, drawing on theoretical work on canonization and cultural capital. Sections interrogate the complex and often unconscious ideological work of prizing, the ongoing tension between formalist awards and so-called identity-based awards — all the more urgent in light of the We Need Diverse Books campaign — the ever-morphing forms and parameters of prizing, and scholarly practices of prizing. Among the many awards discussed are the Pura Belpré Medal, the Inky Awards, the Canada Governor General Literary Award, the Printz Award, the Best Animated Feature Oscar, the Phoenix Award, and the John Newbery Medal, giving due attention to prizes for fiction as well as for non-fiction, poetry, and film. This volume will interest scholars in literary and cultural studies, social history, book history, sociology, education, library and information science, and anyone concerned with children's literature.

Singapore Literature and Culture Angelia Mui Cheng Poon, Angus Whitehead, 2017-03-03 Since the nation-state sprang into being in 1965, Singapore literature in English has blossomed energetically, and yet there have been few books focusing on contextualizing and analyzing Singapore literature despite the increasing international attention garnered by Singaporean writers. This volume brings Anglophone Singapore literature to a wider global audience for the first time, embedding it more closely within literary developments worldwide. Drawing upon postcolonial studies, Singapore studies, and critical discussions in transnationalism and globalization, essays unearth and introduce neglected writers, cast new light on established writers, and examine texts in relation to their specific Singaporean local-historical contexts while also engaging with contemporary issues in Singapore society. Singaporean writers are producing work informed by debates and trends in queer studies, feminism, multiculturalism and social justice -- work which urgently calls for scholarly engagement. This groundbreaking collection of essays aims to set new directions for further scholarship in this exciting and various body of writing from a place that, despite being just a small 'red dot' on the global map, has much to say to scholars and students

worldwide interested in issues of nationalism, diaspora, cosmopolitanism, neoliberalism, immigration, urban space, as well as literary form and content. This book brings Singapore literature and literary criticism into greater global legibility and charts pathways for future developments.

Literature and Law Mark Fortier, 2019-05-09 The fields of literature and law intersect in frequent, and often surprising ways. This clear and concise book offers an introduction to the area, covering the history, key thinkers and ideas as well as detailed and fascinating studies into areas such as evidence and truth, inheritance, sex, vigilantism and justice. Each chapter examines a number of familiar authors and texts including Shakespeare, Brecht, Austen, Dickens, Ishiguro, Beecher-Stowe, Atwood, Miller. The book also opens up the broader study of law as it relates to culture in such areas as film, television, and digital media and how they affect such issues as a right to privacy, copyright and creative reworking, and censorship. Mark Fortier offers a concise, systemic introduction to the law and legal system for the lay person, covering basic notions of justice and law (fundamental justice, natural law, positive law) and the legal system (common law vs civil law, case law, statute, constitutional law, private law [tort, contract, property], criminal law, equity, basic rules of evidence, stare decisis, the adversarial system) as well as a very handy glossary of legal terms. This is a fascinating guide to a very topical and increasingly relevant area of literary studies.

The Routledge Companion to Australian Literature Jessica Gildersleeve, 2020-12-22 In recent years, Australian literature has experienced a revival of interest both domestically and internationally. The increasing prominence of work by writers like Christos Tsiolkas, heightened through television and film adaptation, as well as the award of major international prizes to writers like Richard Flanagan, and the development of new, high-profile prizes like the Stella Prize, have all reinvigorated interest in Australian literature both at home and abroad. This Companion emerges as a part of that reinvigoration, considering anew the history and development of Australian literature and its key themes, as well as tracing the transition of the field through those critical debates. It considers works of Australian literature on their own terms, as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres. With an emphasis on literature's responsibilities, this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with, produces and is produced by its context, provoking a critical re-evaluation of the concept of the relationship between national literatures, cultures, and histories, and the social function of literary texts.
